

Preliminary information for participants, speakers, organisational team, staff members
on the hygiene and infection control requirements for the event:

ClimateCoAction Summit on 20.11.2021 at the location Garage229, Haußmannstr. 229, Stuttgart

The protection of all participants and staff at the ClimateCoAction Summit is very important to us. With care in all areas and strict hygiene, we will fulfil our shared responsibility for the containment of the coronavirus. Please support us in this and consistently observe the rules of conduct. With your prudence you protect yourself and the other people on site!

2G-Rule: Admission only for vaccinated / recovered persons

Students / U18: School ID card / antigen negative test

Minimum distance of 1.50 meters in all areas.

Compulsory registration at the entrance

Masks compulsory (also on the seats)

Hand hygiene

Refrain from hugs and handshakes

Sneeze and cough etiquette

Refrain from on-site participation in case of symptoms or contact with Corona-infected persons in the last 14 days.

Inform us in case of infection after the event!

Explanation of the hygiene and infection control measures

1. Admission according to the 2G rule

Admission to the event is subject to the 2G rule (vaccinated/recovered). The 2G proof must be shown digitally or in paper to the supervising persons at the info counter at the beginning of the event. Participants cannot take part in the event without this proof. The same applies to participants with typical symptoms of illness. Pupils and persons under 18 years of age will be admitted with a currently valid pupil ID or a negative antigen test that is no more than 24 hours old. The same applies to persons who can prove that they cannot be vaccinated for medical reasons. If you feel ill on the days before the event and would still like to participate, please change your registration to online participation!

2. Distance rules and wearing a mask

The distance rule of 1.50m applies for the entire event. On site, it is compulsory to wear a medical mask or FFP2 mask. You must bring your own mask. The mask may only be removed temporarily while you are eating or drinking and if it is temporarily required for the performance of a service or medical treatment or for other urgent reasons. Persons who cannot wear a mouth-nose covering for medical reasons must prove this with a certificate on site.

3. Data processing for contact tracing

The persons on site agree to the collection and temporary storage of their personal data according to § 8 para. 1 CoronaVO. In the case of participants, the contact details are available through the completed online registration and confirmed by the signature to be provided on site at registration (confirmation of participation). The contacts are stored centrally for 4 weeks and, if necessary, transferred to the health authority. The participants will receive the contact information of the organiser on site or have received it with their registration and will be informed that they have to contact the organiser directly after the event in case of a corona infection.

4. Information about infection control measures on site

On site, you will be informed about the regulations for the observance of infection protection during the event as well as about the access ban in case of symptoms by means of an information display in front of the entrance. This also includes our telephone number and the phone number of the Stuttgart Public Health Office. In the event of suspected cases of infection, please inform us immediately. Please inform us urgently after the event in case of a proven Corona infection within 10 days.

5. Disinfection and hygiene measures

Disinfection dispensers are available on site. The sanitary facilities are equipped with washbasins with hot and cold water including soap and disinfectant dispensers. We ensure that door handles, light switches and other shared objects are regularly disinfected. Microphones on stage, laptops and presenters are disinfected after each use.

6. Routing

On site we will implement a wayfinding system with directional arrows and one-way signs. Please follow the routing system at the entrance/info counter, the catering stations, the hall, the workshop areas and the sanitary and entrance/exit areas.

7. Ventilation

In addition to the ventilation system, the venue has doors and gates for natural ventilation during break times. The venue will be permanently ventilated with fresh air until the start of the plenary session at 12:30 am, during the break at 2:00 - 2:30 pm, during the break at 3:45 -4:00 pm, during the break at 5:15 - 5:45 pm and at the end of the evening at 7:30 pm. So please dress warm enough!
